

4-POST OPEN FLOOR STANDING RACK

In an environment where a standard closed cabinet is more than you require, but a 2-Post Open Frame Floor Standing Rack is not enough, SafeNet SN4F Series 4-Post Open Floor Standing Rack offers the strength and stability of a cabinet in an open architecture. It provides easy access to Structured Cabling equipment and allows unrestricted airflow for ventilation. The 4-Post Open Floor Standing Rack can also be fitted with shelves to support non-standard 19-Inch equipment's. Multiple units can be bolted together side by side.

- *Solid structure, modular Design, easy mounting.*
- *Heavy duty Casters with brake to roll out.*
- *Cost effective, easy disassemble, delivery and assemble.*

Standard:

Comply with ANSI/EIA RS-310-D.IEC60297-2. DIN41494; PART1.DIN41494; PART7.
