

The **SAFENET** Laptop Charging Cabinet provides Charge, Secure and Store up to 32 or 48 Laptops with a size of up to 15.7". This charging cabinet is the ideal charging trolley for classrooms, Banks and other organizations using laptop and Chromebooks, with the capacity to charge all devices in one go! The trolley comes with SMART Locking (RFID Card) system and smart cable management.

Laptops are stored vertically in the charging cart on shelves making access easy, and only a short length of power lead is presented to each shelf. The laptop power adapters are neatly stored in a separate electrical compartment, all hidden behind the removable blue metal panel.
